

I know that it is fall when all of a sudden there are events to attend. In October, you can find New Leaf Resumes participating in the following:

Small Business Showcase in Waterloo Region - October 7th
Hosted by Waterloo Inn between 2 and 9pm. Drop by and visit.

Halton Region Job Fair in Burlington. For the third year, on October 15th you can find New Leaf Resumes and Sunshine Design of Rockwood Ontario (owned by my friend Elizabeth Grin) offering free resume assessments from 12 to 5pm.

And these two major events follow on the heels of several speaking engagements through Business and Education Partnership of Waterloo Region, an excellent regional program that pairs high school co-op classes with local career experts.

And finally, on October 26th, New Leaf Resumes will attend **Career Professionals of Canada's Annual Awards Ceremony**. Held at a posh restaurant in Mississauga, the awards will recognize the best of Canadian resume writers.

Recommendations

I'd like to introduce a couple of businesses that I can recommend with confidence.

KatieCher.com Holistic medicine at its very best. Ms. Cher brings new insights into optimal health and how to achieve it. She is a certified holistic nutritionist, a registered lifestyle coach (accreditations on her website), and, like Canada's own mini "Dr. Oz" (she is perhaps five feet tall!), explains it all in plain English. Ms. Cher keeps yours truly at optimum health, weight, and well being. Long distance clients via Skype; local in person. Corporate clients welcome for Wellness Programs. I encourage all to check out her website.

trudezign.ca. Graphics and Marketing with creativity and sincerity. Trudy Visentin expertly offers designs and marketing ideas that are appropriate to your business or venture. I can honestly say that one of Trudy's ideas kept New Leaf Resumes going through the economic downturn with an easy to use, highly effective, and low cost idea (very important to this micro-business owner!). Send your business friends to Trudy for "full service off-site marketing dedicated to the growth and success of your business."

As always, your questions or opinions are encouraged. Do you have a situation at work that is giving you grief? Are your teens unable to find work? Did you spend \$20K putting your daughter through university, and she is now working at McDonalds, with no hope of repaying you and no idea of how to establish her career? Have your retired relatives lost in the stock market, need to find work, and have no idea how to create a re-entry resume? Questions are welcome; answers will be addressed in upcoming issues.

For now then, Stephanie Clark, New Leaf Resumes

P.S. New Leaf Resumes is transitioning to an expanded service. More about that in next month's newsletter!
